Message from the *Chairman and Executive Officer*

Dear Friends and Supporters

It is with pleasure we record that Geyser Community Foundation donors have now gifted more than $2 million since our first distribution to the community in 2008. This significant milestone is a wonderful tribute to local people who care about their home town and the future of their community.

Thanks to their generosity we celebrate a great financial year of gifts totalling more than $300,000, supporting a wide variety of charitable causes in the Rotorua and Taupo District communities and beyond.

Our growing Family of Donors, including those who generously donate towards our operating costs, help Geyser maintain a steady growth and, in times of financial constraint such as we are currently experiencing, supporting the local community is more important than ever.

Based on a well-established and globally successful model, the Community Foundation network in Aotearoa New Zealand has been growing since 2003. Geyser was the fifth to be established and its success is the result of local people understanding they can do good things with their charitable intentions and, when they partner with others, even greater things.

Today, we have the second highest number of funds established and are ranked third for the highest number of funds anticipated in people's wills so far. We make more annual distributions than most other community foundations and achieve all this with the dedication of a volunteer governance board, just 1.3 full-time staff, and many more generous people, including our strategic business partners, including:

- **Rotorua Trust** who make a considerable gift to our operational capability
- **Nairn Fisher,** Chartered Accountants and Advisers who provide us with a rent-free office and discounted accountancy support
- **Dubzz Digital Marketing** for choosing the Geyser Community Foundation as their charity of choice so we can improve our visibility with a new website
- **iTCo** for taking care of the robustness and security of our data
- **One Foundation** who help cover salaries

The Global Pandemic, which first gripped the world in early 2020, continues, and today's significant disruptions to world trade and supply chains, along with persistently high worldwide inflation and geopolitical uncertainties, have become daily challenges for everyone, particularly charitable organisations. Recovery may take some time, and we are grateful for government support last year which minimized some of the economic and health impacts of the crisis.

We are now aware of needs we could never have predicted at the forefront of the pandemic: rising domestic violence and increased drug abuse rates, more demand on food banks and widespread loss of income. And across all communities, the delivery of services in an age of physical distancing has required adaptations to the traditional model of delivery.

As a result, and as a rebuild from the pandemic, Geyser has become more strategic and targetted in its funding priorities. Projects and organisations which support local housing, reduce inequity, engage with young adults, health and wellness and safety initiatives, and those building stronger communities, have become the immediate focus for us to remain receptive to our local communities.

One thing that remains certain, and constant, is that thanks to the generosity of donors and the ingenuity of our local community organisations and leaders, Geyser is here for us all, today and forever.

Managing financial reserves is a critical component of the financial stability and long-term sustainability of the Foundation and this is achieved by reviewing investments regularly and having them professionally managed on our behalf. This daunting task, especially in an unsettled global equity market, rests with Cambridge Partners; and in what has been a challenging year, their understanding of our long-term 'forever' funding model has been essential, and we are enormously grateful for their expertise.

People are very important to Geyser and our donors are our number one priority! It is their generosity which sustains and inspires us: **We love where we live, and that's why we're here!**

Geyser's governance board saw a few changes in the past year: in October 2021 Trustee and Chairman, Kierin Irvine retired, leading to the appointment of our first woman chair; and Michael Grantham, of Taupo was appointed by the Waikato Bay of Plenty Branch of the New Zealand Law Society as a Trustee from 1 April 2022.

Board members now reside across the region in Rotorua, Taupo, Murupara and Reporoa helping the Foundation spread awareness.

Geyser Patron, Joe La Grouw, is also an invaluable member of our governance team: Joe offers leadership, vast philanthropic and community experience and continues to give generously of his time despite his retirement.

Our thanks go to the Patron, Trustees and Management Team who give generously of their time and expertise to 'keep the home fires burning.' We are also grateful to trusted advisers in our business community, many of whom give their valuable time and expertise for no reward other than to assist Geyser to achieve its aims and objectives.

Thank you one and all.

Our *Stories*

“Giving through a community foundation is a kaitiaki role for society – we can all play a part in being guardians for New Zealand.”

- Adrian Orr, Governor of the Reserve Bank of New Zealand Te Pūtea Matua

Born and bred in Taupo, Adrian is a past pupil of Taupo Nui a Tia College and supporter of the College Alumni Fund. He retains strong links to his home town.

It’s easy to show your sense of pride in your home town

Generosity is not measured by how much you give. With community foundations, you don’t have to be wealthy to have an impact. Whether it’s a large or small gift, a one-off or regular contribution, all giving makes a difference through us. Our smarter giving model allows your giving to have benefits that last forever.

Money raised in Taupo stays in Taupo

The Taupo Community Fund is made up of donations and gifts from local people who are helping grow a permanent legacy for the benefit of the Taupo District community, a legacy which will last for generations to come.

Money raised in Taupo stays in Taupo, and every year community representatives from Taupo recommend where the money is most needed.

Royal NZ Plunket Trust Taupo and Taupo Community Gardens were the first two local charities to receive inaugural gifts from the Taupo Community Fund in 2019.

The following year, six more community groups received gifts and this year, eight local charities shared gifts totalling $11,500, including Taupo Community Gardens who were able to appoint a second person to help with administration for 10 hours per week.

The team at Taupo Community Gardens grow food which is provided to the local hospice, food bank and other organisations. Gardeners also work with local children to encourage and teach, and they host a wide range of workshops on subjects such as composting, organic gardening, and worm farming.

Working alongside local students – Taupo Nui a Tia College Alumni Fund

In 2015, Taupo Nui a Tia College became the first Taupo-based organisation to establish a Fund with the Geyser Community Foundation.

For over 60 years the College has been working alongside local students to prepare them for the next phase of their lives, be that further study or the world of work.

Developing sustainable funding is crucial for local charities and organisations, including schools.

The Taupo Nui a Tia Alumni Fund receives regular donations from local people, and in the future will be supercharged by significant bequests in people’s wills.

The annual income from the Fund will help the College in a number of ways such as providing scholarships and prizes for academic achievement; protecting and improving the physical and natural environment of the College, providing assistance to students who are in need or suffering genuine financial hardship, including anyone who does not have access to the things that most people take for granted.

Championing community need – Allan & Jan Sewell Family Fund

Rotorua’s Allan and Jan Sewell are community champions. The couple established the Allan and Jan Sewell Family Fund with Geyser Community Foundation in 2012, liking the idea that donations made through the Foundation will be invested, with the income used to benefit charities in their particular areas of interest.

To date, more than a dozen local charities and organisations have received support from the Fund, including St John, which received a generous donation to purchase a brand new health shuttle, to help Rotorua’s carless patients to get to their appointments.

“The Rotorua community has been good to us over many years and we wanted to give something meaningful back,” said Allan “We feel very privileged to be able to do this and are pleased to be involved with Geyser Community Foundation, which is the ideal charitable vehicle for us.”

The couple like the idea that, while they are alive, they are able to choose who will receive the annual distributions and can nominate different organisations and charitable causes, if they wish.

“We especially like the idea that donations made through Geyser are used for charitable purposes which benefit the local community year on year, forever. This is a very powerful way of giving and something that will continue long after our lifetimes.”

Local organisations and causes supported (some more than once) by the Sewell Family Fund over the past 10 years:

Arthritis NZ - Children’s Camp; BayTrust Rescue Helicopter; Cystic Fibrosis Bay of Plenty; Papamoa Surf and Lifesaving Club; Ronald McDonald House Retreat Rotorua; Rotorua Community Fund; Rotorua Community Hospice; Rotorua Hospital Chaplaincy Trust; Rotorua Mountain Bike Club – First Response Unit; Rotorua Lakes Volunteer Coastguard; St John Rotorua; Salvation Army Rotorua

Some of the impacts from the donations from the Allan and Jan Sewell Family Fund:

- A brand new ambulance shuttle to help carless and vulnerable patients to get to hospital appointments. “If it hadn’t been for the Sewell Family Fund we wouldn’t have been able to replace our old shuttle, which provides an important service to the city, particularly for those who can’t afford transport to get to appointments,”

Rotorua St John Chairman, Ross Burns.

- “We have a small community living in the area, with limited resources, so this donation has been very valuable to them. This grant from the Sewell Family Fund has allowed us to buy expensive portable nebulising equipment that DHB’s do not provide, which allow for freedom for families in day-to-day life,”

Nicola Wakerley, Treasurer, Bay of Plenty Cystic Fibrosis NZ

- “Without this medication (from the Sewell Family Fund) one little girl suffers from seizures, which has a huge impact on her family. Her unfunded medication costs $1,050 per prescription. With the medication, the child has a certain quality of life, she has learned to have fun, be more relaxed, to smile, to get out and about and to show her personality. This vital medication minimises stress and worry for her entire family,”

Rotorua Hospital Chaplaincy Trust.

Empowering rangatahi – Grumitt Sisters Fund

We live in a world of constant change. It can be challenging to foresee what life skills our young people need to prepare them well for their future, skills that will always be important and relevant for generations to come.

In 2008, a generous local woman named Shirley Grumitt set up a Fund with Geyser to honour the memory of her late sister, Barbara with whom she had lived for more than 40 years.

The sisters had professional careers and were business partners for many years. They lived full and busy lives, were well read and well-travelled. Neither married. They cared for their parents and in later life, other siblings and extended family members.

Shirley, who wished to remain anonymous until her death, had a great command of the English language and a delightful sense of humour. Both Shirley and Barbara had a sense of pride in their home town and were passionate about helping young men in their local community fulfil their dreams.

They believed speech and drama was an empowering way for rangatahi to learn effective, clear communication, to be creative and to have self-confidence that would serve them well throughout their life.

Since 2009, the Grumitt Sisters Fund has provided annual grants to students at Rotorua Boys’ High School for training in speech and drama, and will continue to do so year on year, forever. More than 30 local students have received assistance during that time.

Our *Supporters*

One of the important aspects of being a Community Foundation is that we charge no more than 2% annually of the total capital value of Donors' Named Funds. While ensuring maximum returns to the community, this low funding model presents us with a very real challenge until we grow large enough to be self-supporting.

That's why we are so grateful to the local business and community leaders who help us in a number of ways, providing cash donations and sponsorship, and professional services at little or no cost so that we can continue to operate and help build our local communities to be the best that they can be.

Thank you all for your generosity and support.
